Federal-Mogul Receives ‘Supplier of the Year’ Award from Serck Intertruck

Aartselaar, Antwerp, Belgium...Federal-Mogul Corporation’s (NASDAQ: FDML) Aftermarket UK Limited was named 2008 “Supplier of the Year” by Serck Intertruck, a leading international distributor of commercial vehicle components and automotive cooling products. The award, introduced this year, was announced during Serck Intertruck’s annual conference, held near Birmingham, England, United Kingdom.

Serck Intertruck sells Federal-Mogul’s respected DURON[®] brand of replacement braking components to commercial vehicle repair locations across the UK. DURON products include premium-quality replacement brake pads, liners, discs and accessories for virtually any popular commercial application.

The Serck Intertruck Award was established to recognize suppliers who have demonstrated a commitment to business partnership through exceptional product quality, coverage, shipping performance and sales and marketing support. The winner was determined through a vote of the company’s branch managers.

“In what was a tough year for many industry suppliers, Federal-Mogul delivered consistent support above and beyond our expectations,” said Colin Bate, director of sales for Serck Intertruck.

“Our aftermarket team is very proud to have earned this award,” said Martin Hendricks, Federal-Mogul vice president, Europe, Middle East and Africa, Global Aftermarket. “The fact that we continued to perform at a very high level in spite of last year’s difficult market conditions demonstrates that we are the right partner for distributors in any business climate.”
