

Product Highlights

- Excellent abrasion resistance
- Flame resistant
- Zero Halogen
- Self-wrapping design
- Easy to apply and remove
- Ideal for reworking components without disconnecting them
- Working Temperature -50°C +125°C

Typical Applications

- Protection of electrical components, wires and cables

ROUNDIT[®] 2000 V0

ROUNDIT 2000 V0 is a wrap-around sleeving manufactured from flame retardant polyester monofilaments and multifilaments. ROUNDIT 2000 V0 is designed for mechanical protection and maintenance of wire and cable bundles and has an excellent cut-through and abrasion resistance.

The self-wrapping feature of ROUNDIT 2000 V0 allows for quick and easy installation and removal of the product for assembly and maintenance. ROUNDIT 2000 V0 may be installed or removed without any manipulation of connectors or fittings and is an ideal solution where breakouts are necessary.

Its wrappable construction allows stocking of a limited range of sizes to cover a wide range of diameters. To ease installation, a special assembly tooling, ROUNDIT-Tool has been designed.

ROUNDIT 2000 V0 has many applications in the railway, marine and electronic industries.
