“We worked very closely with our automotive customers to develop next-generation technologies that helped to enhance these exceptional powertrains. We play a key role in supporting our customer’s drive for improved fuel economy, reduced emissions and better overall performance. We salute the success of these companies and continue our commitment of providing them with world-class products and leading technologies and innovation in the future,” said José Maria Alapont, Federal-Mogul President and CEO.

Winners of the 16th annual *Ward’s* “10 Best Engines” awards were selected by a panel of judges from *Ward’s* Communications. The awards, presented at a ceremony today in conjunction with the North American International Auto Show in Detroit, are considered the industry benchmark for automotive powertrain excellence.
