

July 24, 2015

Dear Federal-Mogul Supplier:

Federal-Mogul supports the protection of international human rights within the realm of its influence and is committed to the highest ethical standards. These standards are the overarching principles guiding our business practices and our company expects the same of its Suppliers.

As a part of Federal-Mogul's compliance program, please accept this letter as our reaffirmation of Federal-Mogul's requirements to have all Suppliers adhere to the elements contained within our Code of Conduct and Basic Working Conditions policy (FMGE-GL007) available at: <http://www.federalmogul.com/en-US/Suppliers/Pages/home.aspx>. Our company has strict guidelines regarding adherence to our Code of Conduct and Basic Working Conditions and will not do business with Suppliers that violate this policy.

As Federal-Mogul's Suppliers are aware, many of the elements required within the Code of Conduct and Basic Working Conditions are also a material contractual commitment. By way of example:

*Supplier represents that neither it nor any of its subcontractors will utilize child labor, slave, prisoner or any other form of forced or involuntary labor, or engage in abusive worker treatment or corrupt business practices (See Federal-Mogul's Purchasing Terms and Conditions, Section 5).*

These guidelines encourage a relationship with our Suppliers that is built on performance, professionalism and mutual respect. We appreciate your cooperation in adherence to our requirements.

Sincerely,
